## Lamp Craft

A cool Idea for the DIYers that like to do projects using lighting! Take a paper lampshade, draw up a design, and then use a pin or punch to let the light shine through. The design possibilities are endless and results are simply breath-taking.

**January 9, 5:30 pm**

## Wrapped Earbuds

It seems that everyone has the same color charging cord, headphones, or aux cord and it's hard to tell them apart. Bring them all and learn how to cover your cords with embroidery floss. Not only will you personalize your cords, you will also create a layer of protection and give your cords a longer life.
