of Stories

SUMMER LEARNING 2019
May 31-July 26

INFORMATION

The Purpose

Summer Slide, the forgetting of information gained in the school year during summer break, can set back students up to 3 months every year. We are here to help. We provide crafts, STEAM projects, and other activities every weekday to keep children active and learning all summer long.

Food for Thought

Hunger doesn't take a break for the summer, school feeding shouldn't either. We partnered with the Summer Food Service Program to bring packed lunches for everyone 18 and under every weekday. Available at both the Russellville Housing Authority and the Russellville Branch Library.

Space for Family Fun

There are events especially made for all ages at the library! Pick up teen and adult calendars to see what else is going on this summer.

Can't Get to the Russellville Library?

Get the fun of Summer Learning without the drive! Join us at a branch near you!

Auburn:

Wednesdays at 10:00 AM

Adairville:

Wednesdays at 2:00 PM

Russellville Housing Authority:

Weekdays at 10:30 AM, lunch will be provided.

Reading Logs

A big part of Summer Learning is to encourage reading. Pick up a reading log at any branch and mark down *everything* you read. Audiobooks, comics, newspapers, and magazines are all free game for your list. Once a week, on any day, you can bring your log in to receive a prize.

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
<h1>JUNE</h1>					MAY 31 <i>Kickoff</i> Bouncin' B's Bouncy Houses 10:30 am - 2:00 pm	1
2	3 Earth, Moon, and Sun <i>Multiple show times</i>	4 The Nashville Science Guys 10:30 am	5 SpaceCRAFT 10:30 am Waggin' Reads 1:00 pm	6 Bard Buddies: Taming of the Shrew 10:30 am	7 Silly Safari 10:30 am	8
9	10 Bruce Amato 10:30 am	11 STEAM 10:30 am	12 SpaceCRAFT 10:30 am Waggin' Reads 1:00 pm	13 Ann Roseberry 10:30 am	14 Sciencetellers 10:30 am	15
16 CLOSED for Father's Day	17 Down to Earth Aerials 10:30 am	18 Enviroscape 10:30 am	19 SpaceCRAFT 10:30 am Waggin' Reads 1:00 pm	20 Thomas Freese 10:30 am	21 Bright Star Theater: One Small Step 10:30 am	22
23 30	24 Spaced Out Stories and Magic 10:30 am	25 Lego Library 10:30 am	26 SpaceCRAFT 10:30 am Waggin' Reads 1:00 pm	27 Astronaut Training 10:30 am	28 Animal Tales: Galaxy 10:30 am	29

Bouncin' B's Bouncy Houses

Get registered for the summer and have fun on the inflatables: slides, bounce houses, and more! Dress to be active in the Sun.

May 31, 10:30 am - 2:00 pm

Earth, Moon, and Sun

Take a look at the sky with the Living Arts and Science Center! Join Coyote in a planetarium show that explores lunar phases, eclipses, and other puzzles. Native American stories are used throughout the show to help distinguish between myths and science. *Space is limited, tickets are required, free at the front desk.*

June 3, time on ticket

Showings: 10:30 am, 11:00 am, 12:00 pm, 12:30 pm, 1:00 pm, 1:30 pm

Nashville Science Guys

This program is all about the Universe and how we explore it! Dozens of interactive experiments about life in space, rocket propulsion, centrifugal force, planets and orbits. Learn about the Solar System with everyone's favorite, the Hoberman Sphere!

June 4, 10:30 am

Bard Buddies: Taming of the Shrew

Become best buddies with Shakespeare in an interactive workshop. Join the play as two of Shakespeare's strongest characters square off in a battle of wits as the scheming Petruchio faces the headstrong Kate.

June 6, 10:30 am

JUNE EVENTS

Silly Safari

Kids of all ages get close to their favorite animals with our playful, theatrical approach. You haven't seen an animal show until you join us on a Silly Safari!

June 7, 10:30 am

Bruce Amato: Rocket Ride to Reading

A high energy magic show that will take you to the stars and back. Bruce Amato will certainly amaze you and maybe you'll even get to join the show!

June 10, 10:30 am

Ann Roseberry: The Thing From Outer Space

The Thing from Outer Space and Storyteller Ann Roseberry will be coming to Logan County Library for Summer Learning! Join her in making an original story for the Space Case!

June 13, 10:30 am

ScienceTellers

During a midnight meteor shower, something mysterious falls from the sky toward Earth—but it's not a shooting star.

Don't miss this action-packed and educational alien adventure using science experiments for special effects. It's totally out of this world!

June 14, 10:30 am

Down to Earth Aerials

Amanda created a Summer Learning program that includes an aerial acrobatic performance and an interactive presentation where she explains the mechanics, physics, muscle memory, and all the reading she had to do to become a professional acrobat and instructor. Amanda inspires adults and children, sharing her personal story of starting out as an acrobat that was 40 pounds heavier.

June 17, 10:30 am

Enviroscape

Learn about our environment and how we take care of it from a local engineer! Walk through the water cycle and how we can use it to make our state better. Then, test your ideas with an Enviroscape kit. Presented by the Kentucky Engineering Exposure Network.

June 18, 10:30 am

Thomas Freese

Another word for a short story with a punch line at the end is—a joke! Haven't we had enough seriousness? Come enjoy Kentucky storyteller and musician, Thomas Freese, as he spins funny tales—and you can play along! Sing and laugh with stories that will make you giggle or groan.

June 20, 10:30 am

Want to ID what you see in the night sky? Download SkyView on your smartphone to see planets, satellites, constellations and more!

What do planets like to read?

COMET books

Bright Star Theater: One Small Step

Few events in human history have captured the imagination quite like the journey that humankind took to the moon! This tale marks the history of flight and space travel from the ancient tale of Icarus, to the first flights of the Wright Brothers on the beaches at Kitty Hawk, to the Great Space Race of the 1960s and beyond! Young pilots and astronauts will be thrilled to learn about the real-life characters that took One Small Step!

June 21, 10:30 am

Spaced Out Stories and Magic

"Neil and Buzz take a walk while Fizznugh and Snooch see aliens." So starts Magic Don's Spaced Out Stories and Magic! Magic Don dresses up audience volunteers to help tell this amazing story that's 50% true and 100% fun.

June 24, 10:30 am

Animal Tales: Creatures of the Galaxy

Learn about animals through participation! Creatures of the Galaxy features a variety of live exotic animals from all around the world that can be found throughout the cosmos in Constellations.

June 28, 10:30 am

Voyager One is the furthest man-made object from Earth at 13.5 BILLION miles and counting. After launch in 1977, it finally left our solar system in 2012 and is now in interstellar space. It contains a golden record of Earth culture and information in the hope of encountering life in the future.

Where do planets get their music?

Nep-tunes

RECURRING

Check out the calendars for dates and times

Lego Library

From rocket ships to freeze-dried food, build it with bricks at the library.

Astronaut Training

Get fit for space at the library! We will be joined by Logan County Gymnastics for all sorts of tumbling fun.

Waggin' Reads

Practice your reading skills with the best audience in the world: a dog!

SpaceCRAFT

Take your artistic ability to new heights with an hour of science and art! May get messy, dress accordingly.

STEAM Powered

Power your mind with science projects with an artistic twist.

Comet Book Club

Come read with us! Read a book and follow it up with a craft or activity! Every family will go home with a book.

EVENTS

SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
	1 Comet Book Club 10:30 am	2 STEAM 10:30 am	3 SpaceCRAFT 10:30 am Waggin' Reads 1:00 pm	4 CLOSED for Independence Day	5 Animal Tales: Reptiles 10:30 am	6
7	8 Comet Book Club 10:30 am	9 Lego Library 10:30 am	10 SpaceCRAFT 10:30 am Waggin' Reads 1:00 pm	11 Astronaut Training 10:30 am	12 Bright Star Theater: Jack's Adventures in Space 10:30 am	13
14	15 MadCap Puppets: The Great Space Caper 10:30 am	16 STEAM 10:30 am	17 SpaceCRAFT 10:30 am Waggin' Reads 1:00 pm	18 Astronaut Training 10:30 am	19 Pokémon Science 10:30 am	20
21	22 Comet Book Club 10:30 am	23 Lego Library 10:30 am	24 SpaceCRAFT 10:30 am Waggin' Reads 1:00 pm	25 Astronaut Training 10:30 am	26 <i>Finale</i> Mr. Molecule 10:30 am	27
28	29	30	31	JULY		

Animal Tales: Reptiles

For centuries, reptiles have intrigued and horrified people, often due to simple misunderstanding. We will attempt to reverse these misunderstandings by bringing live animals including a large tortoise, lizards, and, of course, snakes to you.

July 5, 10:30 am

MadCap Puppets: The Great Space Caper

Famous space explorer, Buzby, crash lands his spaceship on a strange planet and forms an unlikely friendship with a stranded alien named Galax. Together, they uncover the mysteries of our universe as they search for a new planet that the funny little creature can call home.

July 15, 10:30 am

Bright Star Theater: Jack's Adventures in Space

When it comes to adventure and imagination, no one beats Jack! Come along with Jack in this out-of-this-world adventure through the solar system! Learn about the origins of the names of the planets, Mercury to Neptune, and even the controversial Pluto. Students will also learn about the physical features of the various planets and discover fun facts about each planet's special path around the Sun in this fun STEM adventure!

July 12, 10:30 am

**What did one astronaut say
to the other astronaut?**

I need some space

JULY EVENTS

Pokémon Science

From creating a Pikachu lightning bolt to shooting fireballs like Charizard, students discover the science behind Pokémon with Jason Lindsey of Hooked on Science.

July 19, 10:30 am

Mr. Molecule:

Big Blast of Space

You'll blast off into fun as Mr. Molecule explores the basic concepts of space—from molecules to the Milky Way, from gravity to galaxies! Launching from Spaceship Earth, you'll zoom into the universe where you'll meet Space Rat, an oversized Mousetronaut puppet, who tells the story of Neil Armstrong, the first human to walk on the moon.

July 26, 10:30 am

Meteors (AKA, falling stars) are bits of debris that burn up in Earth's atmosphere, causing brilliant trails of light. Annual meteor showers are caused by Earth plowing through trails of debris left from passing comets. **Next shower: August 12-13**

THANK YOU TO THE FRIENDS OF THE LIBRARY

The Friends of the Library provide volunteers, sponsor programs, and make the library more visible in our community. Like sponsoring these calendars.

A \$10 membership (valid for one calendar year, Jan - Dec) gives you early access to book sales, volunteer opportunities, and the warm, fuzzy knowledge that you are supporting library programming.

Forms are available at all branches. Meetings are monthly on the first Thursday at 6:00 pm.

Hours & Locations
